We are relentless in keeping people safe from harm,  
and we provide a healthy work environment.

From Bechtel's Vision, Values & Covenants

Safeguarding people and the environment is a foundational principal upon which our company is built. We are committed to working with our employees, their families, and those within our communities to instill a culture of care that is evident in our offices, on our projects, and within the industries that we serve.

Creating change takes involvement from everyone. As such, the Children's ES&H Calendar provides a platform where an open dialog allows the younger generation to express their voice and vision in regard to the environmental, safety, and health matters that are important to them. Creating this platform helps establish the importance of protecting people and the environment as part of our desire for a sustainable future.

On behalf of all Bechtel colleagues, we would like to thank all the children who participated in the 2022 children's calendar contest.
